About me

Enthusiastic, developing and building websites.

Invited to join my friend's start–up company as a front–end developer "AgorStudio", I gained experience of working in this area.

As this area complements my studies, I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.

Education & Learning

Science And Research BranchIslamic Azad University, Master of Engineering – MEng, Petroleum
2014 – 2018

Skills
